LEGAL MATTERS
F. REVIEW, DISCUSSION AND POSSIBLE ACTION REGARDING SUMMARY ACTION

1. MD-16-0992A, GREGORY J. PORTER, M.D., LIC. #14879
   Dr. Gillard recused from this case.
   G.S., S.H. and A.C. addressed the Board as members of the public.
   Board staff summarized that the Board initiated the case after receiving a complaint regarding Dr. Porter's care and treatment of a 60 year-old female patient (“VC”) who presented with a chief complaint of “Chronic Pain,” secondary to fibromyalgia and lumbar stenosis with “all over” pain and occasional sciatica. The Medical Consultant (“MC”) indicated that Dr. Porter deviated from the standard of care by performing an insufficient initial assessment and by converting the patient's morphine/oxycodone regimen to methadone without an accurate starting dose. The MC identified the patient's death as actual harm. Board staff noted that Dr. Porter was offered an Interim Practice Restriction prohibiting him from prescribing methadone which Dr. Porter refused to sign and therefore is appearing before the Board for potential summary action.

   Dr. Porter stated that he did not believe that VC’s pathology did not warrant the amount of narcotics she had in her pain medication regimen so he prescribed methadone only when experiencing severe pain as to prevent withdrawal. Dr. Porter explained that he recommended alternative preventative approaches to pain management. Dr. Porter opined that methadone was not a factor in this patient’s death.

   During deliberation Board members agreed that there is concern regarding Dr. Porter’s prescribing of controlled substances and opined that it appeared that he did not understand the ramifications of his prescribing pattern as well as medication interactions.
MOTION: Dr. Krahn moved to summarily restrict Dr. Porter’s Arizona medical license, prohibiting him from prescribing controlled substances based on the finding that the public health, safety and welfare imperatively requires emergency action by the Board and for reasons as stated by the Board during its discussion. 
SECOND: Dr. Paul.
